<b>(b) The Montana Hospital and ASC Outpatient Fee Schedule Organized by APC</b>									
<p>Montana has adopted the following Ambulatory Payment Classifications (APCs) for outpatient (Hospital and Ambulatory Surgery Center) reimbursement for workers' compensation services. The far right columns list the respective Montana reimbursement rate for each APC for 2008, utilizing the hospital outpatient rate of \$105, and the ASC rate of \$79, as described in the related administrative rules section also available on this webpage.</p> <p>When two or more T status code items are on the same claim, the highest weighted code is paid at 100 percent of the Montana APC payment, and subsequent T status code items are paid at 50 percent of the Montana APC payment.</p> <p>A Status Indicator (SI) column is included with this fee schedule, to assist in the interpretation of the APC codes. For those unfamiliar with SI codes, a SI table that includes definitions is located at (g) The Montana Status Indicator (SI) Codes. Only Montana Status Indicator codes can be used to calculate reimbursements for services and supplies. Ignore status indicator codes other than A, B, D, F, G, H, K, L, N, P, S, T, and X and pay at the fee scheduled amount listed.</p>

<b>(b) The Montana Hospital and ASC Outpatient Fee Schedule Organized by APC</b>										
<p>Montana has adopted the following Ambulatory Payment Classifications (APCs) for outpatient (Hospital and Ambulatory Surgery Center) reimbursement for workers' compensation services. The far right columns list the respective Montana reimbursement rate for each APC for 2008, utilizing the hospital outpatient rate of \$105, and the ASC rate of \$79, as described in the related administrative rules section also available on this webpage.</p> <p>When two or more T status code items are on the same claim, the highest weighted code is paid at 100 percent of the Montana APC payment, and subsequent T status code items are paid at 50 percent of the Montana APC payment.</p> <p>A Status Indicator (SI) column is included with this fee schedule, to assist in the interpretation of the APC codes. For those unfamiliar with SI codes, a SI table that includes definitions is located at (g) The Montana Status Indicator (SI) Codes. Only Montana Status Indicator codes can be used to calculate reimbursements for services and supplies. Ignore status indicator codes other than A, B, D, F, G, H, K, L, N, P, S, T, and X and pay at the fee scheduled amount listed.</p>

<b>(b) The Montana Hospital and ASC Outpatient Fee Schedule Organized by APC</b>									
<p>Montana has adopted the following Ambulatory Payment Classifications (APCs) for outpatient (Hospital and Ambulatory Surgery Center) reimbursement for workers' compensation services. The far right columns list the respective Montana reimbursement rate for each APC for 2008, utilizing the hospital outpatient rate of \$105, and the ASC rate of \$79, as described in the related administrative rules section also available on this webpage.</p> <p>When two or more T status code items are on the same claim, the highest weighted code is paid at 100 percent of the Montana APC payment, and subsequent T status code items are paid at 50 percent of the Montana APC payment.</p> <p>A Status Indicator (SI) column is included with this fee schedule, to assist in the interpretation of the APC codes. For those unfamiliar with SI codes, a SI table that includes definitions is located at (g) The Montana Status Indicator (SI) Codes. Only Montana Status Indicator codes can be used to calculate reimbursements for services and supplies. Ignore status indicator codes other than A, B, D, F, G, H, K, L, N, P, S, T, and X and pay at the fee scheduled amount listed.</p>

<b>(b) The Montana Hospital and ASC Outpatient Fee Schedule Organized by APC</b>									
<p>Montana has adopted the following Ambulatory Payment Classifications (APCs) for outpatient (Hospital and Ambulatory Surgery Center) reimbursement for workers' compensation services. The far right columns list the respective Montana reimbursement rate for each APC for 2008, utilizing the hospital outpatient rate of \$105, and the ASC rate of \$79, as described in the related administrative rules section also available on this webpage.</p> <p>When two or more T status code items are on the same claim, the highest weighted code is paid at 100 percent of the Montana APC payment, and subsequent T status code items are paid at 50 percent of the Montana APC payment.</p> <p>A Status Indicator (SI) column is included with this fee schedule, to assist in the interpretation of the APC codes. For those unfamiliar with SI codes, a SI table that includes definitions is located at (g) The Montana Status Indicator (SI) Codes. Only Montana Status Indicator codes can be used to calculate reimbursements for services and supplies. Ignore status indicator codes other than A, B, D, F, G, H, K, L, N, P, S, T, and X and pay at the fee scheduled amount listed.</p>

<b>(b) The Montana Hospital and ASC Outpatient Fee Schedule Organized by APC</b>									
<p>Montana has adopted the following Ambulatory Payment Classifications (APCs) for outpatient (Hospital and Ambulatory Surgery Center) reimbursement for workers' compensation services. The far right columns list the respective Montana reimbursement rate for each APC for 2008, utilizing the hospital outpatient rate of \$105, and the ASC rate of \$79, as described in the related administrative rules section also available on this webpage.</p> <p>When two or more T status code items are on the same claim, the highest weighted code is paid at 100 percent of the Montana APC payment, and subsequent T status code items are paid at 50 percent of the Montana APC payment.</p> <p>A Status Indicator (SI) column is included with this fee schedule, to assist in the interpretation of the APC codes. For those unfamiliar with SI codes, a SI table that includes definitions is located at (g) The Montana Status Indicator (SI) Codes. Only Montana Status Indicator codes can be used to calculate reimbursements for services and supplies. Ignore status indicator codes other than A, B, D, F, G, H, K, L, N, P, S, T, and X and pay at the fee scheduled amount listed.</p>

<b>(b) The Montana Hospital and ASC Outpatient Fee Schedule Organized by APC</b>									
<p>Montana has adopted the following Ambulatory Payment Classifications (APCs) for outpatient (Hospital and Ambulatory Surgery Center) reimbursement for workers' compensation services. The far right columns list the respective Montana reimbursement rate for each APC for 2008, utilizing the hospital outpatient rate of \$105, and the ASC rate of \$79, as described in the related administrative rules section also available on this webpage.</p> <p>When two or more T status code items are on the same claim, the highest weighted code is paid at 100 percent of the Montana APC payment, and subsequent T status code items are paid at 50 percent of the Montana APC payment.</p> <p>A Status Indicator (SI) column is included with this fee schedule, to assist in the interpretation of the APC codes. For those unfamiliar with SI codes, a SI table that includes definitions is located at (g) The Montana Status Indicator (SI) Codes. Only Montana Status Indicator codes can be used to calculate reimbursements for services and supplies. Ignore status indicator codes other than A, B, D, F, G, H, K, L, N, P, S, T, and X and pay at the fee scheduled amount listed.</p>

<b>(b) The Montana Hospital and ASC Outpatient Fee Schedule Organized by APC</b>									
Montana has adopted the following Ambulatory Payment Classifications (APCs) for outpatient (Hospital and Ambulatory Surgery Center) reimbursement for workers' compensation services. The far right columns list the respective Montana reimbursement rate for each APC for 2008, utilizing the hospital outpatient rate of \$105, and the ASC rate of \$79, as described in the related administrative rules section also available on this webpage.									
When two or more T status code items are on the same claim, the highest weighted code is paid at 100 percent of the Montana APC payment, and subsequent T status code items are paid at 50 percent of the Montana APC payment.									
A Status Indicator (SI) column is included with this fee schedule, to assist in the interpretation of the APC codes. For those unfamiliar with SI codes, a SI table that includes definitions is located at (g) The Montana Status Indicator (SI) Codes. Only Montana Status Indicator codes can be used to calculate reimbursements for services and supplies. Ignore status indicator codes other than A, B, D, F, G, H, K, L, N, P, S, T, and X and pay at the fee scheduled amount listed.

<b>(b) The Montana Hospital and ASC Outpatient Fee Schedule Organized by APC</b>										
Montana has adopted the following Ambulatory Payment Classifications (APCs) for outpatient (Hospital and Ambulatory Surgery Center) reimbursement for workers' compensation services. The far right columns list the respective Montana reimbursement rate for each APC for 2008, utilizing the hospital outpatient rate of \$105, and the ASC rate of \$79, as described in the related administrative rules section also available on this webpage.										
When two or more T status code items are on the same claim, the highest weighted code is paid at 100 percent of the Montana APC payment, and subsequent T status code items are paid at 50 percent of the Montana APC payment.										
A Status Indicator (SI) column is included with this fee schedule, to assist in the interpretation of the APC codes. For those unfamiliar with SI codes, a SI table that includes definitions is located at (g) The Montana Status Indicator (SI) Codes. Only Montana Status Indicator codes can be used to calculate reimbursements for services and supplies. Ignore status indicator codes other than A, B, D, F, G, H, K, L, N, P, S, T, and X and pay at the fee scheduled amount listed.

<b>(b) The Montana Hospital and ASC Outpatient Fee Schedule Organized by APC</b>										
<p>Montana has adopted the following Ambulatory Payment Classifications (APCs) for outpatient (Hospital and Ambulatory Surgery Center) reimbursement for workers' compensation services. The far right columns list the respective Montana reimbursement rate for each APC for 2008, utilizing the hospital outpatient rate of \$105, and the ASC rate of \$79, as described in the related administrative rules section also available on this webpage.</p> <p>When two or more T status code items are on the same claim, the highest weighted code is paid at 100 percent of the Montana APC payment, and subsequent T status code items are paid at 50 percent of the Montana APC payment.</p> <p>A Status Indicator (SI) column is included with this fee schedule, to assist in the interpretation of the APC codes. For those unfamiliar with SI codes, a SI table that includes definitions is located at (g) The Montana Status Indicator (SI) Codes. Only Montana Status Indicator codes can be used to calculate reimbursements for services and supplies. Ignore status indicator codes other than A, B, D, F, G, H, K, L, N, P, S, T, and X and pay at the fee scheduled amount listed.</p>

<b>(b) The Montana Hospital and ASC Outpatient Fee Schedule Organized by APC</b>									
<p>Montana has adopted the following Ambulatory Payment Classifications (APCs) for outpatient (Hospital and Ambulatory Surgery Center) reimbursement for workers' compensation services. The far right columns list the respective Montana reimbursement rate for each APC for 2008, utilizing the hospital outpatient rate of \$105, and the ASC rate of \$79, as described in the related administrative rules section also available on this webpage.</p> <p>When two or more T status code items are on the same claim, the highest weighted code is paid at 100 percent of the Montana APC payment, and subsequent T status code items are paid at 50 percent of the Montana APC payment.</p> <p>A Status Indicator (SI) column is included with this fee schedule, to assist in the interpretation of the APC codes. For those unfamiliar with SI codes, a SI table that includes definitions is located at (g) The Montana Status Indicator (SI) Codes. Only Montana Status Indicator codes can be used to calculate reimbursements for services and supplies. Ignore status indicator codes other than A, B, D, F, G, H, K, L, N, P, S, T, and X and pay at the fee scheduled amount listed.</p>

<b>(b) The Montana Hospital and ASC Outpatient Fee Schedule Organized by APC</b>									
<p>Montana has adopted the following Ambulatory Payment Classifications (APCs) for outpatient (Hospital and Ambulatory Surgery Center) reimbursement for workers' compensation services. The far right columns list the respective Montana reimbursement rate for each APC for 2008, utilizing the hospital outpatient rate of \$105, and the ASC rate of \$79, as described in the related administrative rules section also available on this webpage.</p> <p>When two or more T status code items are on the same claim, the highest weighted code is paid at 100 percent of the Montana APC payment, and subsequent T status code items are paid at 50 percent of the Montana APC payment.</p> <p>A Status Indicator (SI) column is included with this fee schedule, to assist in the interpretation of the APC codes. For those unfamiliar with SI codes, a SI table that includes definitions is located at (g) The Montana Status Indicator (SI) Codes. Only Montana Status Indicator codes can be used to calculate reimbursements for services and supplies. Ignore status indicator codes other than A, B, D, F, G, H, K, L, N, P, S, T, and X and pay at the fee scheduled amount listed.</p>

<b>(b) The Montana Hospital and ASC Outpatient Fee Schedule Organized by APC</b>									
<p>Montana has adopted the following Ambulatory Payment Classifications (APCs) for outpatient (Hospital and Ambulatory Surgery Center) reimbursement for workers' compensation services. The far right columns list the respective Montana reimbursement rate for each APC for 2008, utilizing the hospital outpatient rate of \$105, and the ASC rate of \$79, as described in the related administrative rules section also available on this webpage.</p> <p>When two or more T status code items are on the same claim, the highest weighted code is paid at 100 percent of the Montana APC payment, and subsequent T status code items are paid at 50 percent of the Montana APC payment.</p> <p>A Status Indicator (SI) column is included with this fee schedule, to assist in the interpretation of the APC codes. For those unfamiliar with SI codes, a SI table that includes definitions is located at (g) The Montana Status Indicator (SI) Codes. Only Montana Status Indicator codes can be used to calculate reimbursements for services and supplies. Ignore status indicator codes other than A, B, D, F, G, H, K, L, N, P, S, T, and X and pay at the fee scheduled amount listed.</p>

<b>(b) The Montana Hospital and ASC Outpatient Fee Schedule Organized by APC</b>										
<p>Montana has adopted the following Ambulatory Payment Classifications (APCs) for outpatient (Hospital and Ambulatory Surgery Center) reimbursement for workers' compensation services. The far right columns list the respective Montana reimbursement rate for each APC for 2008, utilizing the hospital outpatient rate of \$105, and the ASC rate of \$79, as described in the related administrative rules section also available on this webpage.</p> <p>When two or more T status code items are on the same claim, the highest weighted code is paid at 100 percent of the Montana APC payment, and subsequent T status code items are paid at 50 percent of the Montana APC payment.</p> <p>A Status Indicator (SI) column is included with this fee schedule, to assist in the interpretation of the APC codes. For those unfamiliar with SI codes, a SI table that includes definitions is located at (g) The Montana Status Indicator (SI) Codes. Only Montana Status Indicator codes can be used to calculate reimbursements for services and supplies. Ignore status indicator codes other than A, B, D, F, G, H, K, L, N, P, S, T, and X and pay at the fee scheduled amount listed.</p>

<b>(b) The Montana Hospital and ASC Outpatient Fee Schedule Organized by APC</b>									
<p>Montana has adopted the following Ambulatory Payment Classifications (APCs) for outpatient (Hospital and Ambulatory Surgery Center) reimbursement for workers' compensation services. The far right columns list the respective Montana reimbursement rate for each APC for 2008, utilizing the hospital outpatient rate of \$105, and the ASC rate of \$79, as described in the related administrative rules section also available on this webpage.</p> <p>When two or more T status code items are on the same claim, the highest weighted code is paid at 100 percent of the Montana APC payment, and subsequent T status code items are paid at 50 percent of the Montana APC payment.</p> <p>A Status Indicator (SI) column is included with this fee schedule, to assist in the interpretation of the APC codes. For those unfamiliar with SI codes, a SI table that includes definitions is located at (g) The Montana Status Indicator (SI) Codes. Only Montana Status Indicator codes can be used to calculate reimbursements for services and supplies. Ignore status indicator codes other than A, B, D, F, G, H, K, L, N, P, S, T, and X and pay at the fee scheduled amount listed.</p>

<b>(b) The Montana Hospital and ASC Outpatient Fee Schedule Organized by APC</b>									
<p>Montana has adopted the following Ambulatory Payment Classifications (APCs) for outpatient (Hospital and Ambulatory Surgery Center) reimbursement for workers' compensation services. The far right columns list the respective Montana reimbursement rate for each APC for 2008, utilizing the hospital outpatient rate of \$105, and the ASC rate of \$79, as described in the related administrative rules section also available on this webpage.</p> <p>When two or more T status code items are on the same claim, the highest weighted code is paid at 100 percent of the Montana APC payment, and subsequent T status code items are paid at 50 percent of the Montana APC payment.</p> <p>A Status Indicator (SI) column is included with this fee schedule, to assist in the interpretation of the APC codes. For those unfamiliar with SI codes, a SI table that includes definitions is located at (g) The Montana Status Indicator (SI) Codes. Only Montana Status Indicator codes can be used to calculate reimbursements for services and supplies. Ignore status indicator codes other than A, B, D, F, G, H, K, L, N, P, S, T, and X and pay at the fee scheduled amount listed.</p>

<b>(b) The Montana Hospital and ASC Outpatient Fee Schedule Organized by APC</b>									
<p>Montana has adopted the following Ambulatory Payment Classifications (APCs) for outpatient (Hospital and Ambulatory Surgery Center) reimbursement for workers' compensation services. The far right columns list the respective Montana reimbursement rate for each APC for 2008, utilizing the hospital outpatient rate of \$105, and the ASC rate of \$79, as described in the related administrative rules section also available on this webpage.</p> <p>When two or more T status code items are on the same claim, the highest weighted code is paid at 100 percent of the Montana APC payment, and subsequent T status code items are paid at 50 percent of the Montana APC payment.</p> <p>A Status Indicator (SI) column is included with this fee schedule, to assist in the interpretation of the APC codes. For those unfamiliar with SI codes, a SI table that includes definitions is located at (g) The Montana Status Indicator (SI) Codes. Only Montana Status Indicator codes can be used to calculate reimbursements for services and supplies. Ignore status indicator codes other than A, B, D, F, G, H, K, L, N, P, S, T, and X and pay at the fee scheduled amount listed.</p>

<b>(b) The Montana Hospital and ASC Outpatient Fee Schedule Organized by APC</b>									
Montana has adopted the following Ambulatory Payment Classifications (APCs) for outpatient (Hospital and Ambulatory Surgery Center) reimbursement for workers' compensation services. The far right columns list the respective Montana reimbursement rate for each APC for 2008, utilizing the hospital outpatient rate of \$105, and the ASC rate of \$79, as described in the related administrative rules section also available on this webpage.									
When two or more T status code items are on the same claim, the highest weighted code is paid at 100 percent of the Montana APC payment, and subsequent T status code items are paid at 50 percent of the Montana APC payment.									
A Status Indicator (SI) column is included with this fee schedule, to assist in the interpretation of the APC codes. For those unfamiliar with SI codes, a SI table that includes definitions is located at (g) The Montana Status Indicator (SI) Codes. Only Montana Status Indicator codes can be used to calculate reimbursements for services and supplies. Ignore status indicator codes other than A, B, D, F, G, H, K, L, N, P, S, T, and X and pay at the fee scheduled amount listed.

<b>(b) The Montana Hospital and ASC Outpatient Fee Schedule Organized by APC</b>									
<p>Montana has adopted the following Ambulatory Payment Classifications (APCs) for outpatient (Hospital and Ambulatory Surgery Center) reimbursement for workers' compensation services. The far right columns list the respective Montana reimbursement rate for each APC for 2008, utilizing the hospital outpatient rate of \$105, and the ASC rate of \$79, as described in the related administrative rules section also available on this webpage.</p> <p>When two or more T status code items are on the same claim, the highest weighted code is paid at 100 percent of the Montana APC payment, and subsequent T status code items are paid at 50 percent of the Montana APC payment.</p> <p>A Status Indicator (SI) column is included with this fee schedule, to assist in the interpretation of the APC codes. For those unfamiliar with SI codes, a SI table that includes definitions is located at (g) The Montana Status Indicator (SI) Codes. Only Montana Status Indicator codes can be used to calculate reimbursements for services and supplies. Ignore status indicator codes other than A, B, D, F, G, H, K, L, N, P, S, T, and X and pay at the fee scheduled amount listed.</p>

<b>(b) The Montana Hospital and ASC Outpatient Fee Schedule Organized by APC</b>									
<p>Montana has adopted the following Ambulatory Payment Classifications (APCs) for outpatient (Hospital and Ambulatory Surgery Center) reimbursement for workers' compensation services. The far right columns list the respective Montana reimbursement rate for each APC for 2008, utilizing the hospital outpatient rate of \$105, and the ASC rate of \$79, as described in the related administrative rules section also available on this webpage.</p> <p>When two or more T status code items are on the same claim, the highest weighted code is paid at 100 percent of the Montana APC payment, and subsequent T status code items are paid at 50 percent of the Montana APC payment.</p> <p>A Status Indicator (SI) column is included with this fee schedule, to assist in the interpretation of the APC codes. For those unfamiliar with SI codes, a SI table that includes definitions is located at (g) The Montana Status Indicator (SI) Codes. Only Montana Status Indicator codes can be used to calculate reimbursements for services and supplies. Ignore status indicator codes other than A, B, D, F, G, H, K, L, N, P, S, T, and X and pay at the fee scheduled amount listed.</p>

<b>(b) The Montana Hospital and ASC Outpatient Fee Schedule Organized by APC</b>									
<p>Montana has adopted the following Ambulatory Payment Classifications (APCs) for outpatient (Hospital and Ambulatory Surgery Center) reimbursement for workers' compensation services. The far right columns list the respective Montana reimbursement rate for each APC for 2008, utilizing the hospital outpatient rate of \$105, and the ASC rate of \$79, as described in the related administrative rules section also available on this webpage.</p> <p>When two or more T status code items are on the same claim, the highest weighted code is paid at 100 percent of the Montana APC payment, and subsequent T status code items are paid at 50 percent of the Montana APC payment.</p> <p>A Status Indicator (SI) column is included with this fee schedule, to assist in the interpretation of the APC codes. For those unfamiliar with SI codes, a SI table that includes definitions is located at (g) The Montana Status Indicator (SI) Codes. Only Montana Status Indicator codes can be used to calculate reimbursements for services and supplies. Ignore status indicator codes other than A, B, D, F, G, H, K, L, N, P, S, T, and X and pay at the fee scheduled amount listed.</p>

<b>(b) The Montana Hospital and ASC Outpatient Fee Schedule Organized by APC</b>									
Montana has adopted the following Ambulatory Payment Classifications (APCs) for outpatient (Hospital and Ambulatory Surgery Center) reimbursement for workers' compensation services. The far right columns list the respective Montana reimbursement rate for each APC for 2008, utilizing the hospital outpatient rate of \$105, and the ASC rate of \$79, as described in the related administrative rules section also available on this webpage.									
When two or more T status code items are on the same claim, the highest weighted code is paid at 100 percent of the Montana APC payment, and subsequent T status code items are paid at 50 percent of the Montana APC payment.									
A Status Indicator (SI) column is included with this fee schedule, to assist in the interpretation of the APC codes. For those unfamiliar with SI codes, a SI table that includes definitions is located at (g) The Montana Status Indicator (SI) Codes. Only Montana Status Indicator codes can be used to calculate reimbursements for services and supplies. Ignore status indicator codes other than A, B, D, F, G, H, K, L, N, P, S, T, and X and pay at the fee scheduled amount listed.

<b>(b) The Montana Hospital and ASC Outpatient Fee Schedule Organized by APC</b>									
<p>Montana has adopted the following Ambulatory Payment Classifications (APCs) for outpatient (Hospital and Ambulatory Surgery Center) reimbursement for workers' compensation services. The far right columns list the respective Montana reimbursement rate for each APC for 2008, utilizing the hospital outpatient rate of \$105, and the ASC rate of \$79, as described in the related administrative rules section also available on this webpage.</p> <p>When two or more T status code items are on the same claim, the highest weighted code is paid at 100 percent of the Montana APC payment, and subsequent T status code items are paid at 50 percent of the Montana APC payment.</p> <p>A Status Indicator (SI) column is included with this fee schedule, to assist in the interpretation of the APC codes. For those unfamiliar with SI codes, a SI table that includes definitions is located at (g) The Montana Status Indicator (SI) Codes. Only Montana Status Indicator codes can be used to calculate reimbursements for services and supplies. Ignore status indicator codes other than A, B, D, F, G, H, K, L, N, P, S, T, and X and pay at the fee scheduled amount listed.</p>

<b>(b) The Montana Hospital and ASC Outpatient Fee Schedule Organized by APC</b>										
<p>Montana has adopted the following Ambulatory Payment Classifications (APCs) for outpatient (Hospital and Ambulatory Surgery Center) reimbursement for workers' compensation services. The far right columns list the respective Montana reimbursement rate for each APC for 2008, utilizing the hospital outpatient rate of \$105, and the ASC rate of \$79, as described in the related administrative rules section also available on this webpage.</p> <p>When two or more T status code items are on the same claim, the highest weighted code is paid at 100 percent of the Montana APC payment, and subsequent T status code items are paid at 50 percent of the Montana APC payment.</p> <p>A Status Indicator (SI) column is included with this fee schedule, to assist in the interpretation of the APC codes. For those unfamiliar with SI codes, a SI table that includes definitions is located at (g) The Montana Status Indicator (SI) Codes. Only Montana Status Indicator codes can be used to calculate reimbursements for services and supplies. Ignore status indicator codes other than A, B, D, F, G, H, K, L, N, P, S, T, and X and pay at the fee scheduled amount listed.</p>

<b>(b) The Montana Hospital and ASC Outpatient Fee Schedule Organized by APC</b>									
Montana has adopted the following Ambulatory Payment Classifications (APCs) for outpatient (Hospital and Ambulatory Surgery Center) reimbursement for workers' compensation services. The far right columns list the respective Montana reimbursement rate for each APC for 2008, utilizing the hospital outpatient rate of \$105, and the ASC rate of \$79, as described in the related administrative rules section also available on this webpage.									
When two or more T status code items are on the same claim, the highest weighted code is paid at 100 percent of the Montana APC payment, and subsequent T status code items are paid at 50 percent of the Montana APC payment.									
A Status Indicator (SI) column is included with this fee schedule, to assist in the interpretation of the APC codes. For those unfamiliar with SI codes, a SI table that includes definitions is located at (g) The Montana Status Indicator (SI) Codes. Only Montana Status Indicator codes can be used to calculate reimbursements for services and supplies. Ignore status indicator codes other than A, B, D, F, G, H, K, L, N, P, S, T, and X and pay at the fee scheduled amount listed.

<b>(b) The Montana Hospital and ASC Outpatient Fee Schedule Organized by APC</b>									
Montana has adopted the following Ambulatory Payment Classifications (APCs) for outpatient (Hospital and Ambulatory Surgery Center) reimbursement for workers' compensation services. The far right columns list the respective Montana reimbursement rate for each APC for 2008, utilizing the hospital outpatient rate of \$105, and the ASC rate of \$79, as described in the related administrative rules section also available on this webpage.									
When two or more T status code items are on the same claim, the highest weighted code is paid at 100 percent of the Montana APC payment, and subsequent T status code items are paid at 50 percent of the Montana APC payment.									
A Status Indicator (SI) column is included with this fee schedule, to assist in the interpretation of the APC codes. For those unfamiliar with SI codes, a SI table that includes definitions is located at (g) The Montana Status Indicator (SI) Codes. Only Montana Status Indicator codes can be used to calculate reimbursements for services and supplies. Ignore status indicator codes other than A, B, D, F, G, H, K, L, N, P, S, T, and X and pay at the fee scheduled amount listed.

<b>(b) The Montana Hospital and ASC Outpatient Fee Schedule Organized by APC</b>									
<p>Montana has adopted the following Ambulatory Payment Classifications (APCs) for outpatient (Hospital and Ambulatory Surgery Center) reimbursement for workers' compensation services. The far right columns list the respective Montana reimbursement rate for each APC for 2008, utilizing the hospital outpatient rate of \$105, and the ASC rate of \$79, as described in the related administrative rules section also available on this webpage.</p> <p>When two or more T status code items are on the same claim, the highest weighted code is paid at 100 percent of the Montana APC payment, and subsequent T status code items are paid at 50 percent of the Montana APC payment.</p> <p>A Status Indicator (SI) column is included with this fee schedule, to assist in the interpretation of the APC codes. For those unfamiliar with SI codes, a SI table that includes definitions is located at (g) The Montana Status Indicator (SI) Codes. Only Montana Status Indicator codes can be used to calculate reimbursements for services and supplies. Ignore status indicator codes other than A, B, D, F, G, H, K, L, N, P, S, T, and X and pay at the fee scheduled amount listed.</p>

<b>(b) The Montana Hospital and ASC Outpatient Fee Schedule Organized by APC</b>									
<p>Montana has adopted the following Ambulatory Payment Classifications (APCs) for outpatient (Hospital and Ambulatory Surgery Center) reimbursement for workers' compensation services. The far right columns list the respective Montana reimbursement rate for each APC for 2008, utilizing the hospital outpatient rate of \$105, and the ASC rate of \$79, as described in the related administrative rules section also available on this webpage.</p> <p>When two or more T status code items are on the same claim, the highest weighted code is paid at 100 percent of the Montana APC payment, and subsequent T status code items are paid at 50 percent of the Montana APC payment.</p> <p>A Status Indicator (SI) column is included with this fee schedule, to assist in the interpretation of the APC codes. For those unfamiliar with SI codes, a SI table that includes definitions is located at (g) The Montana Status Indicator (SI) Codes. Only Montana Status Indicator codes can be used to calculate reimbursements for services and supplies. Ignore status indicator codes other than A, B, D, F, G, H, K, L, N, P, S, T, and X and pay at the fee scheduled amount listed.</p>

<b>(b) The Montana Hospital and ASC Outpatient Fee Schedule Organized by APC</b>									
<p>Montana has adopted the following Ambulatory Payment Classifications (APCs) for outpatient (Hospital and Ambulatory Surgery Center) reimbursement for workers' compensation services. The far right columns list the respective Montana reimbursement rate for each APC for 2008, utilizing the hospital outpatient rate of \$105, and the ASC rate of \$79, as described in the related administrative rules section also available on this webpage.</p> <p>When two or more T status code items are on the same claim, the highest weighted code is paid at 100 percent of the Montana APC payment, and subsequent T status code items are paid at 50 percent of the Montana APC payment.</p> <p>A Status Indicator (SI) column is included with this fee schedule, to assist in the interpretation of the APC codes. For those unfamiliar with SI codes, a SI table that includes definitions is located at (g) The Montana Status Indicator (SI) Codes. Only Montana Status Indicator codes can be used to calculate reimbursements for services and supplies. Ignore status indicator codes other than A, B, D, F, G, H, K, L, N, P, S, T, and X and pay at the fee scheduled amount listed.</p>

<b>(b) The Montana Hospital and ASC Outpatient Fee Schedule Organized by APC</b>									
Montana has adopted the following Ambulatory Payment Classifications (APCs) for outpatient (Hospital and Ambulatory Surgery Center) reimbursement for workers' compensation services. The far right columns list the respective Montana reimbursement rate for each APC for 2008, utilizing the hospital outpatient rate of \$105, and the ASC rate of \$79, as described in the related administrative rules section also available on this webpage.									
When two or more T status code items are on the same claim, the highest weighted code is paid at 100 percent of the Montana APC payment, and subsequent T status code items are paid at 50 percent of the Montana APC payment.									
A Status Indicator (SI) column is included with this fee schedule, to assist in the interpretation of the APC codes. For those unfamiliar with SI codes, a SI table that includes definitions is located at (g) The Montana Status Indicator (SI) Codes. Only Montana Status Indicator codes can be used to calculate reimbursements for services and supplies. Ignore status indicator codes other than A, B, D, F, G, H, K, L, N, P, S, T, and X and pay at the fee scheduled amount listed.
